

Marble Drag Racer

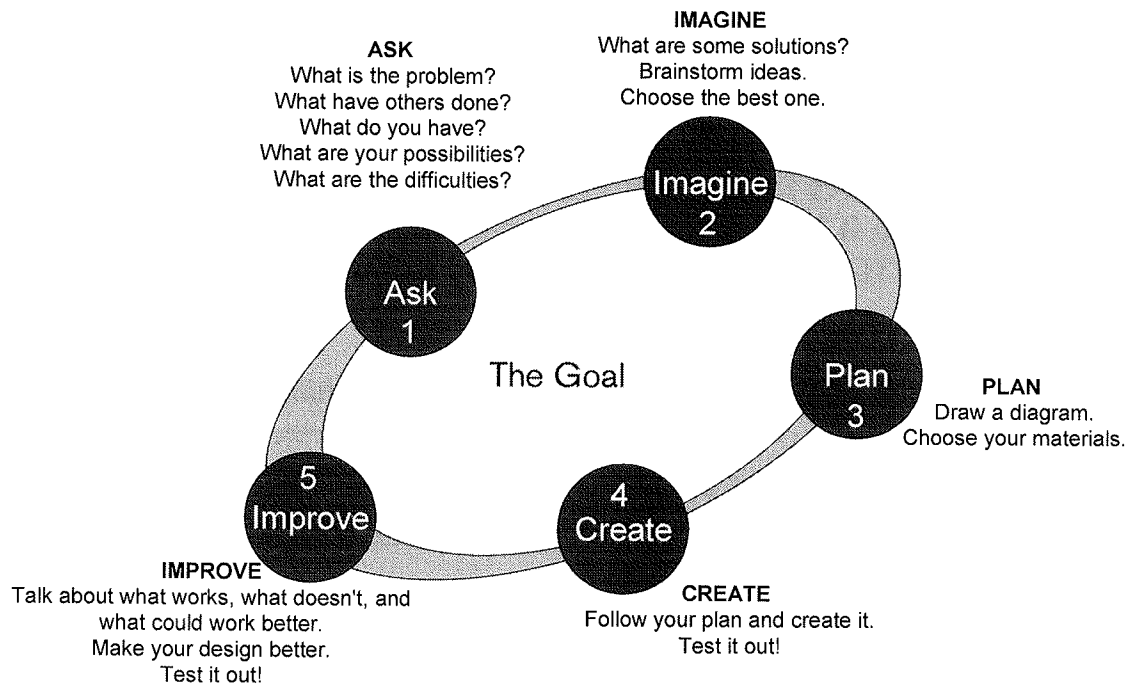

Project

Make a Drag Racer that can catch a marble rolled down a ramp and be propelled forward by the rolling marble!

Task

1. Think about the problem.
2. Come up with ideas of what your Drag Racer will need.
3. Design your Drag Racer on Scrap Paper.
4. Make sure you make a 'pocket' the right size to catch the marble!
5. Don't forget to decorate your car when you are done!

Use the Engineering Design Process to make your Marble Drag Racer!

See the next page for Engineering Hints to help you imagine, plan, and create your Marble Drag Racer!
