

Decorate your mask with markers, colored pencils or crayons.

Cut around the 2012, then cut out the two eyeholes.

Use a hole punch over the x's by the number 2, or gently poke a hole with a pen or pencil.

Tie the mask around your face by tying string or yarn in each hole on the sides of the mask (you can even try floss!)  
Fasten the mask to your face by tying the strings together at the back of your head so it fits snug.
